

# Self-propelled Electric Wire Inspector

**TXR-C3R120PS-02**

- Portable yet high power and high voltage
- Power saving structure and long life battery
- 3-way inspection for wire corrosion

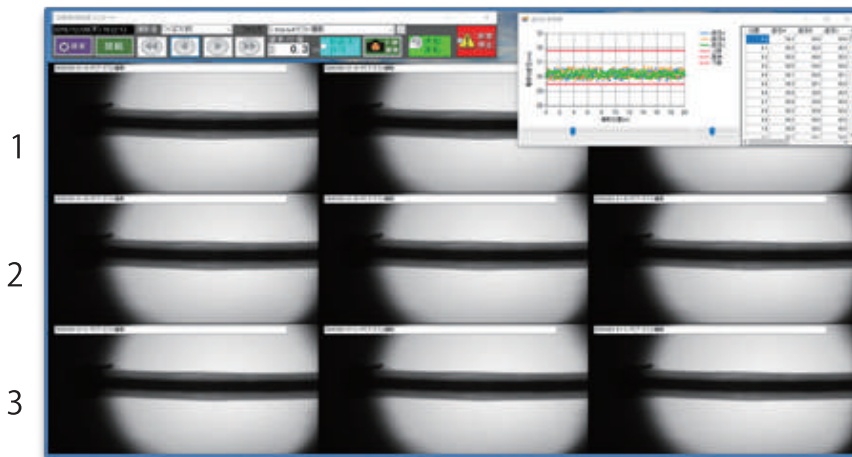

**TSUKUBA TECHNOLOGY CO., LTD.**

# TXR-C3R120PS-02

## Self-propelled Electric Wire Inspector

Electric wire inspector equipped with cold-cathode X-ray tube

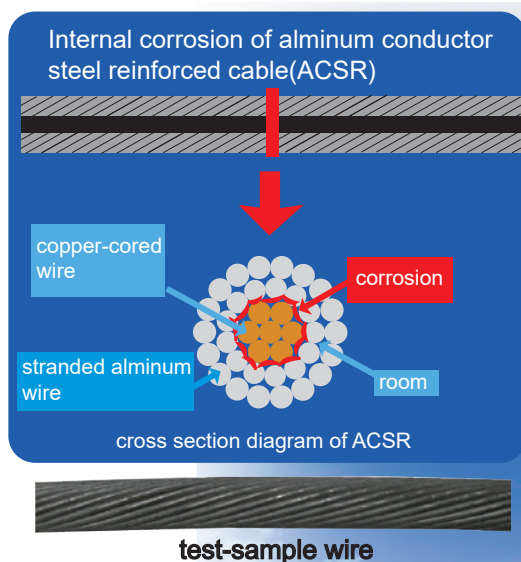

- X-ray tube with no pre-heating and power saving features
- Fast and safe inspection from 3 ways
- Light,small and easy to install

3-way X-ray images

Detection of corrosion part

If tested wire has corrosion materials inside, the amount of penetration of radioactive energy varies at every point

Weight:26.7kg  
Size:350•273•275mm  
Tube voltage:120kV  
Tube current:3mA(max)  
Inspection speed:50~60mm/s  
Applicable wire diameter:10~30mm
